

PRODUCT GUIDE

Acoustic Treatment

RA-LONDON-8-BK	<p>The Broadway London 8 room kit is designed for rooms up to 9m² and can be combined with other products to treat larger spaces. Ideally suited for home studios, these easy to use kits are an affordable way to start with acoustic treatment.</p> <p>The London 8 contains select Broadway panels that tackle problems affecting any room, such as primary reflections, flutter echo, and standing waves. In addition to acoustic panels, each London 8 room kit includes the corresponding mounting hardware and instructions for easy installation. Available in black, beige or grey fabric or in Absolute White™ paintable finish</p>	 <p>\$649.00</p>
RA-LONDON-10-GR	<p>The Broadway London 10 room kit is designed for rooms up to 12m².</p> <p>Broadway panels are made from high-density 6lb per cubic foot (96 kg/m³) fiberglass, offering nearly five times greater absorption than typical low cost foam alternatives. This means that you get more absorption with less panels, while assuring an even absorption curve throughout the frequency range. The London 10 room kit is available in black, beige or grey fabric or in Absolute White™ paintable finish.</p>	 <p>\$1499.00</p>
RA-LONDON-12-BE	<p>The Broadway London 12 room kit is designed for rooms up to 15m².</p> <p>The London 12 contains Broadway panels that tackle problems affecting any room, such as primary reflections, flutter echo, standing waves and excessive bass. In addition to acoustic panels, each London 12 room kit includes the corresponding mounting hardware and instructions for easy installation.</p>	 <p>\$2299.00</p>
RA-NIMBUS-V2-BK	<p>The Primacoustic Nimbus is a high-performance ceiling cloud designed to hang from the ceiling and capture ambient energy by absorbing sound as it hits the face of the panel, all while trapping powerful reflections from the ceiling on the back side of the panel.</p> <p>Each Nimbus kit ships with two panels, eight Helix cloud anchors and SlipNot suspension cables, as well as T-anchors and eye hooks for ceiling mounting. Available in black, grey or beige acoustic fabric; or in a paintable textured white finish.</p>	 <p>\$829.00</p>
RA-STRATUS-BE	<p>The Primacoustic Stratus is an acoustical device that suspends above the recording console to control early reflections, flutter echo, and to help eliminate standing waves that cause resonant peaks in the critical mix position. Once in place, you will immediately enjoy a more controlled and intimate acoustic environment, larger sweet spot, and reduced ear fatigue.</p> <p>Available in black, grey or beige acoustic fabric; or in a paintable textured white finish.</p>	 <p>\$709.00</p>
RA-CUMULUS-BE	<p>The Cumulus is a high-performance tri-corner bass trap that is designed to seamlessly integrate into most rooms without interfering with the natural room décor.</p> <p>Given the choice, acousticians will always employ corners for acoustic sound control. This is primarily due to the way sound propagates inside a room, whereby the walls and ceiling act as waveguides that drive sound to the corners where it gathers. The Cumulus nestles high, up into the tri-corner where the walls and ceiling intersect for maximum efficiency.</p>	 <p>\$399.00</p>

Audio Interfaces

SS-2	<p>SSL 2 USB Interface Features:</p> <ul style="list-style-type: none"> • 2X Class-Leading Mic Preamps (130.5dB EIN / 62dB of Gain). • Pro-Studio Quality Neutrik Connectors and Alps pots. • High Current Headphone Amp. • 24-bit / 192 kHz AKM Converters. • Legacy 4K Analogue Enhancement - Inspired by SL4000 series console. • SSL Production Pack - Exclusive software bundle. • Advanced Workflow Technology utilized in ergonomics, layout and metering. 	 <p>\$469.00</p>

SS-2+	<p>SSL 2+ USB Interface Features:</p> <ul style="list-style-type: none"> • 2X Class-Leading Mic Preamps (130.5dB EIN / 62dB of Gain). • Pro-Studio Quality Neutrik Connectors and Alps pots. • 2X High Current Headphone Amps with independent monitor mix. • 24-bit / 192 kHz AKM Converters. • Legacy 4K Analogue Enhancement - Inspired by SSL4000 series console. • MIDI I/O. • Additional un-balanced Outputs for DJ Mixers. • SSL Production Pack - Exclusive software bundle. 	\$579.00
		
TC-GO-GUITAR	<p>Portable Guitar Interface for Mobile Devices</p> <p>Go inspire the world and record your electric guitar, bass and line-level instruments</p> <p>Plug in your electric or bass guitar and unleash your creativity</p> <p>Record quality audio directly to your iOS*, Android*, Mac* and PC devices</p> <p>Compatible with a wide range of iOS apps and software</p> <p>Integrates seamlessly with the creative suite of TC Helicon mobile apps</p> <p>Convenient outputs for your headphones, guitar amp or PA system</p> <p>Also connects to your keyboards, mixers and other line level audio devices</p> <p>High resolution digital conversion for pristine audio recording</p>	\$79.00
		
TC-GO-VOCAL	<p>High-Quality Microphone Preamp for Mobile Devices</p> <p>Go inspire the world with a high-quality microphone preamp and let your voice be heard</p> <p>Record quality audio directly to your iOS*, Android*, Mac* and PC devices</p> <p>XLR input lets you connect any dynamic or condenser microphone</p> <p>Headphone output to monitor processed audio</p> <p>Provides switchable 48 V phantom power for condenser microphones</p> <p>Integrates seamlessly with the creative suite of TC Helicon mobile apps</p> <p>Compatible with a wide range of mobile apps and software</p> <p>LED to signal phantom power for easy visual reference</p>	\$109.00
		
TC-GO-GUITAR-PRO	<p>High-Definition Guitar Interface for Mobile Devices</p> <p>Go inspire the world and record your electric guitar, bass and line-level instruments</p> <p>Plug in your electric or bass guitar and unleash your creativity</p> <p>Record high-definition audio directly to your iOS*, Android*, Mac* and PC devices</p> <p>Compatible with a wide range of mobile apps and software</p> <p>Integrates seamlessly with the creative suite of TC Helicon mobile apps</p> <p>Award-winning Midas preamp for highest signal integrity</p> <p>Guitar input and output connectors for guitars, amps, PA systems, etc.</p> <p>Powerful headphone output with adjustable level</p>	\$219.00
		
Guitar Interfaces		
RA-HEADLOAD-V8	<p>The Headload is a combination load box and attenuator that is capable of handling up to 130 watts RMS of continuous power and peaks of 180 watts.</p> <p>Combination speaker attenuator and simulator</p> <p>Safely handles up to 130 watts RMS (180 peak)</p> <p>Radial JDX Reactor and Phaser for direct recording</p> <p>Delivers great tone from your amp at low volume</p>	\$2939.00
		
RA-HEADLOAD-PROD	<p>The Headload Prodigy™ is a combination load box and DI that lets you drive your guitar amp at a higher output in order to maximize the tone, yet produce a lower stage volume when needed.</p> <p>Load box with 100%, 50% and silent attenuation</p> <p>Let's you drive your amp hard for best tone</p> <p>JDX Reactor direct output for PA and monitors</p> <p>Built-in headphone amp for practicing</p>	\$1209.00
		
RA-PRODI	<p>Compact passive direct box for stage and studio</p> <ul style="list-style-type: none"> • Able to handle huge transients without distortion • Transformer isolation eliminates noisy ground loops • Plug and play easy to use feature set - on stage or in the studio <p>The heart of the ProDI is a custom wound Radial transformer. It features an exceptionally high 140kΩ input impedance to reduce loading while enabling the ProDI to handle extreme signal levels at all frequencies without distortion. This is further improved upon with an internal mu-metal shield to protect against electromagnetic fields that can cause unshielded transformers to distort.</p>	\$269.00
		

Product Code	Description	List Inc GST
RA-PRO48	<p>The Radial Pro48 is a compact high-performance 48V phantom powered active direct box designed specifically for todays high output instruments.</p> <p>The Pro48's innovative internal switching power supply significantly increases headroom producing less distortion while yielding a smooth, linear response that extends from 20Hz to well above 40kHz.</p> <ul style="list-style-type: none"> • High performance active direct box • Increased dynamic range and headroom • 48V phantom powered with switching supply • Ideal for acoustic guitar and bass 	 <p>\$269.00</p>
RA-JDI	<p>The Radial JDI is a passive direct box designed to handle extreme signal levels without distortion of any kind. Unlike an active DI that is limited by the buffering amplifier's rail voltage, the JDI employs a Jensen audio transformer as the engine. Jensen transformers are legendary in their ability to gracefully handle transients while delivering a smooth, warm sounding Bessel curve, reminiscent of the finest vintage gear. Ruler flat from 10Hz to 40kHz and with virtually zero phase deviation, the JDI delivers the natural, pure sound of the instrument without artifact.</p>	 <p>\$539.00</p>
RA-J48	<p>The Radial J48 has been designed from the ground up to deliver the most natural tone.</p> <ul style="list-style-type: none"> • Ultra low distortion of all types • Exceptional headroom & dynamic range • Retains instrument's natural sound • Powered by 48V phantom 	 <p>\$539.00</p>
RA-X-AMP	<p>The Radial X-Amp is an active Reamper™ that allows the engineer to play a pre-recorded track back through guitar amplifiers and pedals.</p> <ul style="list-style-type: none"> • Active Reamp® with two outputs • 100% discrete class-A signal path • Transformer isolated to eliminate noise • Variable 'set & forget' level control 	 <p>\$549.00</p>
RA-REAMP-JCR	<p>The Reamp® JCR™ is a passive Reamper™ that allows you to take a prerecorded track and send it back to a guitar or bass amplifier and re-record it.</p> <ul style="list-style-type: none"> • Lets you re-record tracks through a guitar or bass amp • Original Reamp circuit designed by John Cuniberti • Plug and play easy to use passive design • Improves productivity while expanding creative options 	 <p>\$549.00</p>
RA-PRORMP	<p>The Radial ProRMP is a 100% passive Reamper.</p> <ul style="list-style-type: none"> • Play pre-recorded tracks through amps and pedals • On board level control for fine tuning amp level • Transformer isolated to eliminate buzz and hum • Opens the door to creative new tones and textures 	 <p>\$279.00</p>
Microphones		
TY-TM1	<p>The large-diaphragm TM1 Condenser Microphone is designed to capture your sounds with incredible realism, sensitivity and accuracy. Featuring premium-grade electronic components and a pure gold-plated diaphragm capsule, the TM1 captures pristinely clear audio via its cardioid pickup pattern design and wide 132 dB dynamic range. This versatile microphone is well suited for a variety of applications ranging from recording studios to broadcast stations.</p>	 <p>\$299.00 EACH</p>

Mixers		
SS-SIX	<p>A fully professional 6 Channel console for use in the studio, in post-production, on stage, and for podcasting.</p> <p>Benchmark SuperAnalogue™ audio performance. Two SSL console grade SuperAnalogue mic pre's, Classic SSL Channel Processing, Essential versions of SSL Channel EQ and Dynamics The unique Listen Mic Compressor</p> <p>Professional Routing & Monitoring The hidden versatility of truly professional features</p>	 <p>\$2899.00</p>
TC-GO-XLR	<p>Revolutionary Online Broadcaster Platform with 4-Channel Mixer, Motorized Faders, Sound Board and Vocal Effects</p>	 <p>\$1159.00</p>
TC-GO-XLR-MINI	<p>GoXLR Mini is an intuitive all-in-one audio interface for live streamers and content creators. Designed specifically for an online creator's workflow, GoXLR Mini establishes multiple USB audio devices in Windows so you can control your app volumes individually. Our award-winning MIDAS preamps are quiet and versatile—perfect for any voice and microphone. Whether you're an established creator with a multi-PC setup, or just getting started, GoXLR Mini has all the inputs and outputs to grow with you.</p>	 <p>\$539.00</p>
Speakers		
TY-GOLD-5	<p>Premium 200-Watt Bi-Amplified Nearfield Studio Reference Monitor with Proprietary 5" Dual Concentric Point Source Technology</p>	 <p>\$549.50</p>
TY-GOLD-7	<p>Premium 300-Watt Bi-Amplified Nearfield Studio Reference Monitor with Proprietary 6.5" Dual Concentric Point Source Technology</p>	 <p>\$669.50</p>
TY-GOLD-8	<p>Premium 300-Watt Bi-Amplified Nearfield Studio Reference Monitor with Proprietary 8" Dual Concentric Point Source Technology</p>	 <p>\$769.50</p>
DY-LYD-5	<p>Nearfield Monitor with 5" Woofer - White</p> <p>Bi-amped speaker design with 2 x 50W and state-of-the-art Class-D amplification</p> <p>Bass extension to extend or curtail the low end frequency response</p> <p>Two different tunings: one for free standing and one designed for speakers within 50 cm of wall</p> <p>Sound balance to influence the overall response of the speaker</p> <p>Made in Denmark</p>	 <p>\$989.50</p> <p>Each</p>

Product Code	Description		List Inc GST
DY-LYD-7	<p>Nearfield Monitor with 7" Woofer - White</p> <p>Bi-amped speaker design with 2 x 50W and state-of-the-art Class-D amplification</p> <p>Bass extension to extend or curtail the low end frequency response</p> <p>Two different tunings: one for free standing and one designed for speakers within 50 cm of wall</p> <p>Sound balance to influence the overall response of the speaker</p> <p>Made in Denmark</p>		<p>\$1319.50</p> <p>Each</p>
DY-LYD-8BK	<p>Nearfield Monitor with 8" Woofer - Black</p> <p>Bi-amped speaker design with 50W HF/80W LF and state-of-the-art Class-D amplification</p> <p>Bass extension to extend or curtail the low end frequency response</p> <p>Two different tunings: one for free standing and one designed for speakers within 50 cm of wall</p> <p>Sound balance to influence the overall response of the speaker</p> <p>Made in Denmark</p>		<p>\$1649.50</p> <p>Each</p>
Vocal Effects			
TC-DUPPLICATOR	<p>Choice of 3 Doubling styles, including Tight, Loose and Octaves. Room, Club and Hall reverb choices. Transparent auto-chromatic pitch correction. Battery operation (batteries optional) Clean, clear, low noise mic preamp with phantom power. Reverb and Tone can remain on whether Doubling is on or off. Mic Control™ allows remote Harmony on/off using the switch on the TC-Helicon MP-75 mic. Rugged all-metal construction. USB connection to free VoiceSupport application for easy firmware updates. 9V operation (vs 12V) to accommodate common pedalboard power supplies. Automatic input gain – no more setting and adjusting input gain</p>		\$399.00
TC-VT-C1	<p>Voicetone C1 Hard-Tune & Correction - Key/Auto selection. Correction Amount. Gender Amount. Footswitch on/off. Mic Control on/off. Double style.</p>		\$319.00
TC-VT-D1	<p>Voicetone D1 Doubling & Detune - Double style. Double mix. Footswitch on/off. Mic Control on/off.</p>		\$319.00
TC-VT-T1	<p>Voicetone T1 Adaptive Tone & Dynamics - Intelligently adapts to your voice, making your tone crisp, clean and full. High quality multi-band EQ with Compression & De-essing. Create the perfect sound by chaining VoiceTone Singles together. Reverb style. Reverb mix.</p>		\$319.00
TC-VT-R1	<p>Voicetone R1 Vocal Tuned Reverb - Reverb style. Reverb mix. Footswitch on/off. Mic Control on/off. Key/Auto selection.</p>		\$319.00

Product Code	Description	List Inc GST
TC-VT-H1	Voicetone H1 Intelligent Harmony - Key/Auto selection. Harmony voicing. Harmony Mix. Footswitch on/off. Mic Control on/off. Transducer Type. Drive. Filter. Footswitch on/off. Mic Control on/off.	\$319.00
		
TC-VT-X1	Voicetone X1 Megaphone & Distortion - Transducer Type. Drive. Filter. Footswitch on/off. Mic Control on/off.	\$319.00
		
TC-VT-E1	Voicetone E1 Echo & Tap Delay - Delay Style. Feedback. Mix. Analog on/off. Footswitch on/off. Mic Control on/off.	\$319.00
