**Celing Panels - Nimbus Clouds**

RA-NIMBUS-V2-BK

The Primacoustic Nimbus is a high-performance ceiling cloud designed to hang from the ceiling and capture ambient energy by absorbing sound as it hits the face of the panel, all while trapping powerful reflections from the ceiling on the back side of the panel.

**\$829.00**

Manufacturers Part  
Z840 1225 00

Each Nimbus kit ships with two panels, eight Helix cloud anchors and SlipNot suspension cables, as well as T-anchors and eye hooks for ceiling mounting. Available in black, grey or beige acoustic fabric; or in a paintable textured white finish.

RA-STRATUS-BE

The Primacoustic Stratus is an acoustical device that suspends above the recording console to control early reflections, flutter echo, and to help eliminate standing waves that cause resonant peaks in the critical mix position. Once in place, you will immediately enjoy a more controlled and intimate acoustic environment, larger sweet spot, and reduced ear fatigue.

Manufacturers Part Z840 1210 00		Dealer Cost ex GST \$242.87

RA-CUMULUS-BE	The Cumulus is a high-performance tri-corner bass trap that is designed to seamlessly integrate into most rooms without interfering with the natural room décor.	\$399.00
Manufacturers Part Z840 1210 03	Given the choice, acousticians will always employ corners for acoustic sound control. This is primarily due to the way sound propagates inside a room, whereby the walls and ceiling act as waveguides that drive sound to the corners where it gathers. The Cumulus nestles high, up into the tri-corner where the walls and ceiling intersect for maximum efficiency.	Dealer Cost ex GST \$242.87
